DACCIA ESTERNO

Diagono un installato gli accessori (1), verificare la planarità e la distanza tra il piano di coperta (2) e il muro (3); montare la guarnizione (3) e fissare il gruppo agli accessori tramite la cavità (4).

EXPOSED SHOWER

After installing the eccentric thread fittings (1), check planarity and checking that the distance between centres is equal to 150 mm; fit the wall trim (2); insert the gasket (3) and fix the group onto the eccentric thread fittings using the covers (4).

DUSCHE IM AUßENBEREICH

Diagono un installato gli accessori (1), verificare la planarità e la distanza tra il piano di coperta (2) e il muro (3); montare la guarnizione (3) e fissare il gruppo agli accessori tramite la cavità (4).

DOUCHE EXTERIEURE

Après avoir installé les raccords excentrés (1), vérifier la planéité et que l'écart entre les deux centres soit égal à 150 mm; monter les rebords de finition (2); insérer la garniture (3) et fixer le groupe sur les raccords excentrés à l'aide des couvercles (4).

DUCHA EXTERIOR

Tras haber instalado los accesorios (1), verificar la planaridad y la distancia entre ejes (150 mm); montar los forros decorativos (2); introducir la junta (3) y fijar el grupo sobre los accesorios excentrados (4).

DUCHA INTERNA

Diagono un installato gli accessori (1), verificare la planarità e la distanza tra il piano di coperta (2) e il muro (3); montare la guarnizione (3) e fissare il gruppo agli accessori tramite la cavità (4).

НАРУЖНЫЙ ДУШ

После установки элементов (1) проверить правильность расположения и свернуть расстояние между ними - 150 мм, установить накладку (2) и закрепить уплотнитель (3) и закрыть крышку (4).
